

Botron High Quality Non-Marking Toe grounder are made from the best products on the market. Our grounders have the largest cup design with better floor contact and better testing when soiled. With its dual layer construction non-marking interior and exterior is designed for long wear. Will not mark floor or shoes. The 10" conductive ribbon provides a safe static discharge to ground when tucked into your shoe. Adjustable at the toe area for comfort. We sew our own products so we can make it any way you need. The **B7572** has stretch Velcro fastening system with a built in 1-megohm resistor, we also offer 2meg and no resistor products. **Disclaimer.** All statements of technical information are believed to be true and are based upon tests we believe to be reliable. The proper use and application for this product must be the responsibility of the user. The statements herein shall have no force or effect.
