

## PRODUCT INFORMATION B9742 COMMON POINT BENCH GROUND

**Descripton:** Botron bench common point ground is a molded 10' long grounding device that allows two workers to use the same ground for wrist straps. A supervisor or fellow worker can plug into the bench ground point and be at the same potential. Two 1/8"(4mm) parking studs on the sides provided a safe place for cords when not in use.

**Disclaimer:** All statements of a technical information are believed to be true and based upon test believed to be reliable. The proper use and application for this product must be the responsibility of the user. The statements herein shall have no force or effect.
